Thanks Ken. I was hoping to get copies of the actual ESA consultations that took place between EPA and USFWS when these chemicals were approved. See here under "Consultation with the services" <https://www.epa.gov/endangered-species/assessing-pesticides-under-endangered-species-act#consulting>

Would you know the person at EPA that might have knowledge on these consultations. I wasn't able to find the actual documents online. USFWS might be able to help too and I have copied them here. My hunch is that this was a HQ-level consultation process.

Thanks,
Dorothy

Dorothy, attached are the EPA Registration Eligibility Decisions (RED)s that I have on-hand for the chemicals in Dibrom Concentrate (Naled) and Duet (Prallethrin, Sumithrin, and Piperonyl Butoxide). I have reached back to our HQ folks for any updated or additional information on risk assessments associated with registration/reregistration. Ken
